

Symposium

# Networks, Time, and Causality

When? Friday | April 13, 2018 | 9:00 - 12:00

Where? ETH Main Building | HG D 3.2

---

09:00 - 09:15 Opening (Frank Schweitzer)

---

09:15 - 10:00

Detecting sequences of system states in temporal networks

Naoki Masuda

Faculty of Engineering, University of Bristol

---

10:00 - 10:45

Learning optimal models of causal topologies in temporal data streams

Ingo Scholtes

Chair of Systems Design, ETH Zürich

---

10:45 - 11:15 Coffee Break

---

11:15 - 12:00

Higher order representations of meso- and macroscale structures in temporal networks

Márton Karsai

École Normale Supérieure de Lyon
